

Publications in foreign press

On January 4-5, 2019, on the initiative of the Department of Electricity Supply and Renewable Energy Sources, the researcher of Krakov University of Technology, Ph.D. O.Tursunov led a master class on the topic 'Scientific Writing & Publishing - International Experience'. The purpose of the seminar was to include the rating of our institute in the world leading higher education institutions and publish scientific articles by our scientists on the Web of Science and Scopus Indexed Journals. On the first day of the seminar, Prof. O.Tursunov explained the specific requirements of the Web of Science and Scopus Indexed Journals for publication, and the second day of the seminar the basic requirements for editorials, and the journals that could be published in the Web of Science and Scopus Indexed Journals was considered in detail. About 50 professors and teachers participated in the seminar, during which they received answers to their questions. At the end of the seminar, participants received certificates.

Report by PhD D.Qodirov, the coordinator of the seminar

R.Jumaniyozov, the press-secretary of the institute
