

Demonstrative lesson and contest

The natural benefits of nature or the wealth of human beings have the norms of inventions. Rational and efficient use of them is very important. Consequently, normative approach to all events is an important issue. On the 12th of December, 2018, at the initiative of the Department of "Electricity Supply and Renewable Energy Sources" of the faculty "Energy and Agriculture in the Agriculture and Water Resources", on the basis of the "Measures on efficient and rational use of electricity" by Uzbekenergo On December 12, 2018 there was a open lesson and a competition with the participation of professors, teachers, PhD students, masters and students in order to timely fulfill the tasks outlined in the letter of the Ministry of Higher and Secondary Special Education of the Republic of Uzbekistan dated December 3, 2018 № 87-02-3535.

Academician of the Academy of Sciences of the Republic of Uzbekistan, Ph.D., prof. Rakhat Zakhidov and 10 specialists of Uzbekenergo. The head of the department BG Kadyrov, the chairman of the Youth Union F.Nuraliev and the head of the joint-stock company "UzbekenergoAhorot" S.Mirzayeva and deputy director ZHShalikov. Academician R.A.Zahidov, BGKodirov, F.N.Nuraliyev, Z.Sh.Halikov, professor A.Radjabov, dean of the faculty, Ph.D. A. Isakova and the head of the department PhD D. Kadyrov made presentations on the current practical role of efficient and rational use of electric energy and increase of electric power efficiency. At the end of the event there was a contest-contest in the form of short questions and answers in the style of Blis-Question, "How efficient and rational use of electricity is possible". Active and active participants were rewarded with memorable gifts - art books.
