

Lessons at the industrial enterprises

Section 3 of Section 5 of the Decree of the President of the Republic of Uzbekistan involving theoretical lessons with practice, students with their teachers visited industrial enterprises. On November 14, 2019 R.Yunusov, Associate Professor of "EM and UEE" department, conducted a training course on "Electrical Materials" at the Kuylyuk substation at the Tashkent Central Electricity Network. They led him away.

For students, this lesson was very interesting. Students received adequate answers from experts on the questions they interested.

Information of Associate Professor of the Department "EM and UEE" U.Khaliqnazarov
