

Visit of graduates of professional colleges

Within the framework of the implementation of the unified state policy aimed at the training of highly-qualified and qualified cadres, who possess advanced methods and forms of work in the modern conditions of higher and secondary vocational education, with independent thinking, high moral and ethical qualities, the academic year 2018-2019 On March 26, 2019, college graduates visited the Tashkent Institute of Irrigation and Engineers of Agricultural Mechanization with a view to increase the effectiveness of attracting graduates of the Kibray District Power Engineering College to continue their academic studies at higher education institutions. About 60 students of the Department of Rural and Enlightenment Work at the Power Engineering Professional College of Kibray district, B.Uigunkhodjaev, masters of production, E.Koraboev and N.Meyliyev, took part in the "Spiritual and educational work" Deputy Dean of the Faculty of History Sh. Berdiev. The visit was organized on the basis of approved roadmap and college students were familiarized with the rector of the institute, the IRC, the Council of the Youth Union of Uzbekistan, the D-teaching laboratories, the activity of the faculty of "Agriculture and Water Resources" and the teaching laboratories of the faculty.

The press secretary of the Institute, Rakhimboy Jumaniyazov
