

Researchers

T.r	Full name	Degree and title	Code and name of the specialty	Dissertation topic
DSc				
1	Berdishev Abdurahim Suleimanovich	C.t.s. – associate professor	05.05.07-Electric technologies and electrical equipment in agriculture	Electrotechnology for increasing the efficiency of drinking and agricultural wastewater treatment
2	Eshpulatov Nodir Mamatkurbanovich	PhD, associate professor	05.05.07-Electric technologies and electrical equipment in agriculture	“Electrotechnology of increasing energy efficiency of fruit and grape juice production”
3	Matchanov Oybek Kuchkorovich	PhD, associate professor	05.05.07-Electric technologies and electrical equipment in agriculture	“Scientific-methodological bases of increasing energy efficiency in cotton processing”
4	Turdiboev Abduvali Abduzhalolovich	PhD, associate professor	05.05.07-Electric technologies and electrical equipment in agriculture	Development of a methodology for decontamination of wastewater using an electrotechnological method.
5	Markaev Nuriddin Murodovich	PhD, associate professor	05.05.07-Electric technologies and electrical equipment in agriculture	Use of energy-efficient electrotechnology in growing plant seedlings from cuttings.
PhD				
1	Yunusov Rustem Faikovich	Associate professor	05.05.07-Electric technologies and electrical equipment in agriculture	Creation of a feed distributor with a linear asynchronous electric drive platform.
2	Aitbaev Nurlan Ali ugli	doctoral student	05.05.07-Electric technologies and electrical equipment in agriculture	"Establishment of the method and parameters of water neutralization by electrohydraulic effect"
3	Akbarov Dilmurod Muhammad ugli	doctoral student	05.05.07-Electric technologies and electrical equipment in agriculture	"Development of a combined method and device for protecting the motors of agricultural electric drives from abnormal modes"
4	Botirov Abror Numon ugli	doctoral student	05.05.07-Electric technologies and electrical equipment in agriculture	"Establishment of the energy parameters of the combined electric vehicle"

5	Sultonov Sanzharbek Soyibjon ugli	doctoral student	05.05.07-Electric technologies and electrical equipment in agriculture	"Based on the energy parameters of the mobile power plant based on garland micro-gas"
6	Dzhumabayeva Zulfizar Zokirzon qizi	doctoral student	05.05.07-Electric technologies and electrical equipment in agriculture	Improving the energy efficiency of drinking water disinfection in rural local water supply.
